ABOUT US

THE COMPANY

Our company Asas Matahari Sdn Bhd was founded in 1997 as a mini market until we decide to extend our business in manufacturer food industry in Melaka Halal Hub, Melaka, Malaysia. We engage in processing, trading and marketing tuna raw materials and tuna products like tuna floss and other varieties of meat floss. Apart from that, we also became the exporter of tuna fish to Japan and our floss varieties have penetrated the global market since years ago.

Our company has experience to process best quality of tuna from raw to end products. We are Certified Halal by JAKIM, GMP and HACCP certification from Ministry of Health (KKM) Malaysia prove that quality is our top priority.

TUNA CAPTURE IN SEMPORNA SABAH

Our fresh tuna are carefully selected and our Yellowfin tuna is in top 3 highest quality tuna in the world. From deep blue ocean in Sulu Sea around Pulau Mabul, Semporna Island, Sabah, the freshness of tuna fish is undoubted. Strategically located in the middle of Southeast Asia, the potential of tuna resource in East Malaysia EEZ, oceanic tuna species such as Bigeye and Yellowfin is around 25,000 tonnes (RM150 million).

We practice sustainable sourcing of handline caught tuna using handline, next handling raw and processing into frozen tuna products. This grade of tuna is meant for being shipped frozen and taken care of to ensure maintenance of the quality and safety of the product (-18°C).

WHOLE TUNA SPECIES

From Yellowfin tuna, Bigeye tuna to Skipjack tuna, we have prepared the products according to the sizes from large to the medium size of tuna product, includes a variety of products such as whole fish, loins, steaks, saku blocks and poke cubes.
