# PREFACE

The **Phytosanitary Requirements for Exportation of Horticulture Produce from Malaysia 2022** booklet is published by Plant Biosecurity Division (PBD), Department of Agriculture (DOA) Malaysia to provide information on importing countries' phytosanitary requirements which impose phytosanitary conditions that are required to be followed by exporters in Malaysia. It is our hope that this booklet will serve as a reference to all exporters, agricultural entrepreneurs and to extension officers of related Government Departments and Agencies which are involved in certification activities as well as inspections of horticulture produce for export.

The information provided in this booklet is arranged according to 3 commodity categories which are fruits, vegetables and cut flowers, foliage, aquatic plants and ornamental plants. All phytosanitary requirements for each commodity are listed according to countries. A section on "Market Access Status on Horticulture Produce According to Countries" is also provided to assist readers in searching for information according to countries.

**Exporters are welcomed to communicate with PBD if there are interests to export other commodities which are not listed in the booklet.**

If the commodities have been exported before to the particular country, PBD will provide the phytosanitary requirements for exporters to adhere to, Phytosanitary Certificate (PC) will be issued and exportation can commence. Otherwise, PBD will proceed to communicate with the National Plant Protection Organization (NPPO) of the particular country to request for the phytosanitary requirements. Some countries may require a Pest Risk Analysis (PRA) to be conducted, if the commodity has not yet been exported to the country. There are also instances where import requirements could be revised by the importing countries due to changes in the pest status or repeated number of non-compliances from exporting countries.

# CONTENTS

- 4** Introduction
  - 6** Market Access Status on Horticulture Produce According to Countries
  - 8** Phytosanitary Requirements for Exportation of Horticulture Produce from Malaysia
    - 8** Fruits
    - 20** Vegetables
    - 26** Cut Flowers, Foliage, Aquatic Plants and Ornamental Plants
  - 31** Application Procedure for Phytosanitary Certificate
  - 32** Registration Procedure for Farms and Premises
  - 33** Appendices
    - 33** Appendix 1:  
List of Phytosanitary Certification Issuance Offices
    - 35** Appendix 2:  
Procedure for the Application of Phytosanitary Certificate
    - 36** Appendix 3:  
List of Website Links on Import Requirements of Selected Countries
    - 37** Appendix 4:  
List of Malaysian Accredited Laboratories by Indonesian Agricultural Quarantine Agency (IAQA)
    - 38** Appendix 5:  
Farm Registration Form for Export
    - 40** Appendix 6:  
Processing Facility/Packing House Registration Form for Export
    - 42** Appendix 7:  
List of Cut Flowers and Foliage to Australia
  - 44** Abbreviations
  - 45** Acknowledgement
- 

# INTRODUCTION

The Department of Agriculture (DOA) Malaysia is recognized by the Food and Agriculture Organization (FAO) and International Plant Protection Convention (IPPC) as the NPPO of Malaysia.

One of the main functions of NPPO is to initiate market access for products that have not yet obtained approval from importing countries. Certain commodities obtain market access through technical bilateral negotiations whereby export protocols were discussed and agreed by both parties. The export protocols underline importing countries' phytosanitary requirements, for instance, the use of approved quarantine treatment, farm, processing facility and packing house registration requirements as well as other requirements on food safety and traceability for the export of Malaysian horticulture produce.

In facilitating exporters to comply with the exportation protocol of importing countries, DOA Malaysia provides professional advisory services on the following activities:

- Preparation of farms, collecting, packaging and processing facilities for registration under DOA Malaysia prior to inspection by the importing countries' Plant Quarantine Authorities. Farms to be registered shall implement Good Agricultural Practice (GAP) and have obtained DOA Malaysia's myGAP Certification. Processing facilities are required to obtain Good Manufacturing Practice (GMP) or Hazard Analysis Critical Control Point (HACCP) certifications. For more information on GMP and HACCP, exporters are encouraged to contact State Health Department for their advisory services and certification procedures;
- Trainings to exporters on quarantine treatment. The treatment can be carried out by the exporters or by using services provided by treatment providers. On quarantine treatments such as fumigation and heat treatment, only DOA's Malaysian Fumigation Accreditation Scheme (MAFAS) and Malaysian Heat Treatment Accreditation Scheme (MAHTAS) accredited companies are allowed to provide services on the two treatments. In addition to that, exporters are allowed to carry out quarantine treatments at their own premises with conditions that they are registered and accredited under the DOA's Malaysian Phytosanitary Certification Assurance Scheme (MPCA);
- Provides Vapor Heat Treatment (VHT) service for export of certain commodities at the Agricultural Treatment and Export Centers located at Serdang;
- Provides Phytosanitary Certification service by implementing inspection at exporters' premises or at all certificate issuance office managed by DOA Malaysia. A Phytosanitary Certificate (PC) is issued after a successful phytosanitary inspection for each consignment to be exported. Application for a PC can be made online at [www.myphyto.gov.my](http://www.myphyto.gov.my) or by visiting PC issuance office as listed in **Appendix 1**;
- Provides Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permit/certification service by issuing CITES Export Permit for each consignment sourced from artificially propagated to be exported (if applicable). Application for a CITES Permit/certificate can be made online at [www.myphyto.gov.my](http://www.myphyto.gov.my)

PHYTOSANITARY  
REQUIREMENTS  
FOR EXPORTATION  
OF HORTICULTURE  
PRODUCE FROM  
MALAYSIA

COMMODITY	COUNTRY	PHYTOSANITARY REQUIREMENTS
<b>All Types of Fruits</b> (All Forms)	Singapore	1. No treatment is required but must be free from any plant pest and disease.
	Hong Kong	1. Phytosanitary Certificate; 2. No treatment is required but must be free from any plant pest and disease.
	Middle East Countries	1. Phytosanitary Certificate; 2. No treatment is required but must be free from any plant pest and disease. <i>*Notes: Certain fruits exported to Middle East Countries may require additional requirements. Exporters are advised to check with DOA Malaysia for clarification.</i>
	European Union (EU) Countries United Kingdom (UK)	1. Phytosanitary Certificate; 2. No treatment is required but must be free from any plant pest and disease. <i>*Notes: Certain fruits exported to EU countries and UK may require additional requirements. Exporters are advised to check with DOA Malaysia for clarification.</i>
<b>All Types of Fruits – except banana</b> (Frozen - all forms)	Australia	1. Each consignment must be verified to have undergone appropriate freezing process (freezing declaration is required); 2. The core temperature of -18°C or below must be maintained for a period of 7 days and must reach Australia in frozen form; 3. Free from any plant and disease.
<b>Banana</b> <i>Musa (L.) spp.</i> (Fresh)	China	Under negotiation.
<b>Coconut</b> <i>Cocos nucifera</i> (Fresh)	Australia	1. Phytosanitary Certificate; 2. Import Permit; 3. Fumigation treatment using Methyl Bromide at a rate 32g/m <sup>3</sup> at 21°C for 24 hours; 4. Fruits must be de-husked; 5. Farm must be registered with DOA Malaysia; 6. Additional declaration "The disease red ring, lethal yellowing, kaincope, cadang-cadang, brown leaf wilt, root wilt, guam palm kernel diseases are not known to occur in Malaysia".
	Pakistan	1. Phytosanitary Certificate; 2. Fumigation treatment using Methyl Bromide at a rate 32g/m <sup>3</sup> at 21°C for 24 hours; 3. Fruits must be de-husked; 4. Farm must be registered with DOA Malaysia.
	Canada	1. Phytosanitary Certificate; 2. Subject to import inspection by Canadian Food Inspection Agency (CFIA); 3. No treatment is required but must be free from any plant pest and disease.
	China	1. Phytosanitary Certificate; 2. No treatment is required but must be free from any plant pest and disease; 3. Packing house must be registered with DOA Malaysia.
	Japan Thailand	1. Phytosanitary Certificate; 2. No treatment is required but must be free from any plant pest and disease.
	South Korea Taiwan	1. Phytosanitary Certificate; 2. No treatment is required but must be free from any plant pest and disease; 3. Fruits must be de-husked.

COMMODITY	COUNTRY	PHYTOSANITARY REQUIREMENTS
<b>Durian</b> <i>Durio zibethinus</i> (Chilled Pulp)	Australia	<ol style="list-style-type: none"> <li>1. Phytosanitary Certificate;</li> <li>2. Fruit must be free from durian seed borer (<i>Mudaria luteileprosa</i> Holloway) and durian fruit borer (<i>Mudaria magniplaga</i> Walker);</li> <li>3. Processing facility must be registered with DOA Malaysia;</li> <li>4. Processing facility must be accredited with Good Manufacturing Practice (GMP) from Ministry of Health (MOH) Malaysia;</li> <li>5. Each consignment must be accompanied with a Manufacturer's Declaration detailing information on fruit quantity and the fruit processing information as required by the Department of Agriculture, Water and the Environment (DAWE) Australia.</li> </ol>
	Taiwan	<ol style="list-style-type: none"> <li>1. Phytosanitary Certificate;</li> <li>2. Fruits must be stored at 1-2°C prior to export.</li> </ol>
<b>Durian</b> <i>Durio zibethinus</i> (Fresh)	Australia Taiwan	Under negotiation.
	Indonesia Japan Thailand Vietnam	<ol style="list-style-type: none"> <li>1. Phytosanitary Certificate;</li> <li>2. No treatment is required but must be free from any plant pest and disease.</li> </ol>
	South Korea	<ol style="list-style-type: none"> <li>1. Phytosanitary Certificate;</li> <li>2. Additional declaration: "This consignment complies with the requirements agreed between Korea and Malaysia";</li> <li>3. No treatment is required but must be free from any plant pest and disease;</li> <li>4. Fruits must be sourced from farms registered with DOA Malaysia and accredited with myGAP;</li> <li>5. Packing house must be registered with DOA Malaysia. The facility must implement fruit processing activities involving cleaning, washing, brushing and packaging of durian fruit as required by Animal and Plant Quarantine Agency (APQA) Korea;</li> <li>6. Packing carton or pallet for export shall label with "For Korea" and "the name of farm or grower with the DOA registration number".</li> </ol>
<b>Durian</b> <i>Durio zibethinus</i> (Frozen – all forms)	USA	<ol style="list-style-type: none"> <li>1. Phytosanitary Certificates;</li> <li>2. Whole fruit or pulp must be through a treatment procedure that is equivalent to the treatment process by the Animal and Plant Health Inspection Services (APHIS) as stipulated in the United States Department of Agriculture (USDA) treatment manual;</li> <li>3. Whole fruit or pulp must be delivered within 48 hours and remain frozen below -6.7°C upon arrival in the USA.</li> </ol>
<b>Durian</b> <i>Durio zibethinus</i> (Frozen)	Australia Taiwan	<ol style="list-style-type: none"> <li>1. Phytosanitary Certificate;</li> <li>2. Whole fruit or loose pulp must be stored at -18°C for 7 days prior to export.</li> </ol>

Farms and packing houses must be registered with DOA Malaysia and approved by DAWE Australia.</li> </ol>

# APPLICATION PROCEDURE FOR PHYTOSANITARY CERTIFICATE

PC is a patented plant health certificate based on the International Standards for Phytosanitary Measures (ISPM) No. 12 (Guidelines for phytosanitary certificates) of the International Plant Protection Convention (IPPC). It is gazetted in Malaysia through the provision in Plant Quarantine Regulations 1981. A PC is used by all countries in the world to certify all plant, plant products and regulated articles for export have complied with the phytosanitary requirements of importing countries. A PC can be applied in Malaysia from the Plant Biosecurity Division, Department of Agriculture Kuala Lumpur and also at all PC issuance offices in each state in Malaysia as shown in **Appendix 1**.

A PC can be applied at all PC issuance offices or through online at [www.myphyto.gov.my](http://www.myphyto.gov.my). Upon application, the consignment intended

for export will need to be visually inspected by Plant Quarantine Inspectors of DOA Malaysia. The inspection is carried out to ascertain that the consignment has been properly treated with the correct quarantine treatment and they are free from the presence of any plant pest and disease as required by the importing countries. The procedure of obtaining a PC is shown in **Appendix 2**.

As a reference, website links on import requirements for fruits, vegetables and flowers of selected countries are listed as in **Appendix 3**.

Apart from that, an addition to Indonesia's import requirement was revised in 2016. Further explanation on Indonesia's food safety system of fresh agriculture produce can be found in **Appendix 4**.

# REGISTRATION PROCEDURE FOR FARMS AND PROCESSING FACILITIES

Certain countries such as China, Japan, South Korea and USA impose additional import conditions for the exportation of horticulture produce from Malaysia. These countries require exporters to register their farms and processing facilities with DOA Malaysia. As part of the requirement, the farms must implement GAP and are accredited with DOA Malaysia's myGAP. Application for myGAP can be made at all DOA Malaysia's District Agriculture Offices and State Agriculture Offices. Further information can be obtained from [www.doa.gov.my](http://www.doa.gov.my).

All processing facilities associated with the preparation and processing of minimally processed, frozen or chilled fruits for export must implement GMP and accredited by MOH Malaysia under the certification scheme for GMP. Further information can be found at <http://fsq.moh.gov.my>. In addition, DOA Malaysia will also inspect and provide advice on the setting up of a pest-free processing facility. Such facility must provide equipment that would fulfill the pest-free criteria such as netted structure, air shower, UV light trap, negative air flow system etc. It is highly advisable that exporters clarify the import requirements from their importers, who would be able to liaise with the local authorities, most importantly the NPPO of importing countries, before any goods are shipped, to avoid any detainment or refusal of consignments at entry points.

The application form for Farm Registration for Export is as shown in **Appendix 5** and the application form for Processing Facility/Packing

House Registration for Export is as shown in **Appendix 6**.

The following steps are made compulsory by DOA Malaysia to consider the registration and approval of farms and processing facilities for export:

- i) Applicant shall submit application form to register farm or/and processing facility to the Registration Secretariat. Registration form can be downloaded from [www.doa.gov.my](http://www.doa.gov.my) or by sending their request directly to the Plant Biosecurity Division, Department of Agriculture Kuala Lumpur;
- ii) Inspection of farms/processing facilities by inspecting officers from DOA Malaysia after receiving sufficient information from the applicant;
- iii) Applicant conducts corrective actions and upgrading works as recommended by the inspecting officers;
- iv) Re-audit by the inspecting officers after receiving confirmation on the completion of corrective works by the applicant;
- v) DOA Malaysia releases the approval for farms and processing facilities and issues NPPO registration number;
- vi) DOA Malaysia will inform applicant on audit visit by the importing countries inspecting officers from time to time;
- vii) Approval given by the importing countries to the farms and processing facilities;
- viii) Unannounced audits to all farms and processing facilities by DOA Malaysia from time to time.

# APPENDICES

## APPENDIX 1: LIST OF PHYTOSANITARY CERTIFICATION ISSUANCE OFFICES

### MAIN OFFICE

#### Phytosanitary Certification and CITES Unit

##### Plant Biosecurity Division

Department of Agriculture  
Jalan Sultan Salahuddin  
50632 Kuala Lumpur  
Tel No. : 03-20301400  
Fax No.: 03-26977164

### JOHOR

#### Plant Biosecurity Division

Department of Agriculture  
256, Jalan Abdul Samad  
80100 Johor Bahru, Johor  
Tel No. : 07-2239395  
Fax No.: 07-2239398

#### Plant Biosecurity Division

Department of Agriculture  
86100 Ayer Hitam, Johor  
Tel No. : 07-7581211  
Fax No.: 07-7581287

### KEDAH

#### Plant Biosecurity Division

Department of Agriculture  
Kompleks Pertanian Teluk Chengai  
06600 Kuala Kedah, Kedah  
Tel No. : 04-7711154  
Fax No.: 04-7729127

### KELANTAN

#### Plant Biosecurity Division

Department of Agriculture  
Kompleks Pertanian Lundang  
15990 Kota Bharu, Kelantan  
Tel No. : 09-7440508  
Fax No.: 09-7434635

### MALACCA

#### Plant Biosecurity Division

Pusat Pertanian Pulau Gadong  
75200 Melaka  
Tel No. : 06-3354604  
Fax No.: 06-3367330

### NEGERI SEMBILAN

#### Plant Biosecurity Division

Kompleks Pertanian Chembong,  
71300 Rembau, Negeri Sembilan  
Tel No. : 06-6854331  
Fax No.: 06-6855389

### PAHANG

#### Plant Biosecurity Division

Department of Agriculture  
Level 6, Kompleks Tun Razak,  
Bandar Indera Mahkota,  
25990 Kuantan, Pahang.  
Tel No. : 09-5735626  
Fax No.: 09-5738179

#### Plant Biosecurity Division

Kompleks Pertanian Cameron Highland,  
39000 Tanah Rata, Pahang.  
Tel No. : 05-4901100  
Fax No.: 05-4912004

#### Raub District Agriculture Office

27600 Raub, Pahang  
Tel No. : 09-3551267  
Fax No.: 09-3558760

#### Plant Biosecurity Division

Department of Agriculture  
KM3 Jalan Triang  
28000 Temerloh, Pahang.  
Tel. No.: 09-2961130  
Fax No.: 09-2961134

### PERAK

#### Plant Biosecurity Division

Perak State Department of Agriculture  
30632 Ipoh, Perak  
Tel No. : 05-2530062  
Fax No.: 05-2417376

#### Plant Biosecurity Division

Pusat Pertanian Chenderung Balai  
36600 Teluk Intan, Perak  
Tel No. : 05-6512655  
Fax No.: 05-6512589

## APPENDIX 4: LIST OF MALAYSIAN ACCREDITED LABORATORIES BY INDONESIAN AGRICULTURAL QUARANTINE AGENCY (IAQA)

In 2016, Indonesia has revised its regulation where importation of Fresh Foods of Plant Origin (FFPO) shall comply with Indonesia's food safety requirements. Currently, there are 103 types of FFPO regulated under this regulation which include fruits, vegetables, grains, nuts, pulses and estate crops. The objective of this Regulation is to safeguard the consumer from hazardous food and to provide a better approach on food safety control particularly in entry/exit points based on a risk-based inspection method.

Other requirements stipulated under this Regulation include:

- FFPO must only be imported to Indonesia from:
  - countries with recognition for its food safety control system; or
  - countries with registered food safety testing laboratory/ies.
- Importation of FFPO from countries with recognition for its food safety control system must be accompanied by prior notice.
- Importation of FFPO from countries with registered food safety testing laboratory/ies must be accompanied by:
  - prior notice; and
  - certificate of analysis (CoA)
- Prior Notice must be issued by exporter or its representative in origin country at the latest before FFPO is loaded to the means of conveyance;
- Prior notice must be issued electronically through IAQA's official website: <http://www.karantina.deptan.go.id/> (then go to Layanan Interaktif (Interactive Service), find prior notice (PSAT)) or go directly to: <https://notice.karantina.pertanian.go.id/>;
- In case of FFPO is transited and the volume and/or types of FFPO is reduced, a prior notice for transit shall be issued by exporter or its representative in the transit country;
- CoA must be issued by testing laboratory/ies that has/have been registered by IAQA;
- CoA must include the FFPO's identity; FFPO's owner identity; consignment identity; testing date; testing method; result of analysis; and a statement guarantee the FFPO comply with Indonesia's food safety requirements.

As of 1<sup>st</sup> January 2022, 5 laboratories in Malaysia were approved and recognized by IAQA to conduct testing. The laboratories' details are as follows:

NO	LABORATORY	NO. REGISTRATION	PARAMETER	
1.	Food Safety and Quality Laboratory Perlis Jalan Abi Tok Hashim, 0100 Kangar, Perlis	Lab.Reg.No 01/ Mys/2019	Pesticide residue Microbiology	
2.	Food Safety and Quality Laboratory Selangor Block C, Jalan Langat, Bandar Botanik 41200, Klang, Selangor	Lab.Reg.No 02/ Mys/2019	Pesticide residue Mycotoxin	Microbiology
3.	Food Safety and Quality Laboratory Sarawak Jalan Tun Abang Haji Openg, 93590 Kuching, Sarawak	Lab.Reg.No 03/ Mys/2019	Pesticide residue Microbiology	
4.	Myco2 Sdn Bhd No 16, Lengkok Kikik 1, Taman Inderawasih 13600 Perai, Pulau Pinang	Lab. Reg. 04/Mys/2019	Pesticide residue Heavy metal	Mycotoxin Microbiology
5.	ALS Technichem (M) Sdn Bhd Wisma ALS No. 19& 21, Jalan ASTAKA U8/84 Seksyen U8, Bukit Jelutong, 40150 Shah Alam, Selangor	Lab. Reg. 05/Mys/2019	Pesticide residue Heavy metal	Mycotoxin Microbiology
6.	Lotus Laboratory Services (M) Sdn Bhd No 5 and No 7, Jalan Bakawali 36, Taman Johor Jaya 81000 Johor Bharu	Lab. Reg. 06/Mys/2019	Pesticide residue Heavy metal	Mycotoxin Microbiology

\*\*\*PLEASE ENSURE ALL DOCUMENTS **ARE COMPLETE AND CORRECT BEFORE** SUBMITTING THE APPLICATION FORM\*\*\*

## APPENDIX 7: LIST OF CUT FLOWERS AND FOLIAGE TO AUSTRALIA

### SCIENTIFIC NAME

*Adiantum* spp.  
*Agapanthus* spp.  
*Alcea* spp.  
*Allium* spp.  
*Alstroemeria* spp.  
*Althaea* spp.  
*Amaranthus* spp.  
*Amaryllis* spp.  
*Ammi majus*  
*Ammi visnaga*  
*Anemone* spp.  
*Anigozanthos* spp.  
*Anthurium* spp.  
*Arecaceae*  
*Asplenium nidus*  
*Astilbe* spp.  
*Brunia* spp.  
*Calathea insignis*, *C. lancifolia*  
*Callistephus chinensis*  
*Campanula* spp.  
*Chelone* spp.  
*Chrysanthemum* spp.  
*Codiaeum variegatum* (syn. *Corton variegatus*)  
*Consolida* spp.  
*Convallaria* spp.  
*Cordyline* spp.  
*Craspedia* spp.  
*Curcuma arlismatifolia*  
*Cycas* spp.  
*Cyclamen* spp.  
*Delphinium* spp.  
*Dianthus* spp.  
*Digitalis* spp.  
*Dracaena* spp.  
*Epipremnum aureum* and *E. pinnatum*  
*Eryngium* spp.  
*Eustoma grandiflorum*, *E. russellianum*  
*Freesia* spp.  
*Gentiana triflora*  
*Gerbera* spp.  
*Gladiolus* spp.  
*Gloriosa* spp.  
*Gypsophila* spp.  
*Hippeastrum* spp.  
*Hyacinthus* spp.  
*Hypericum* spp.

### COMMODITY

Maidenhair Fern  
 Lily of the Nile, African Lily  
 Hollyhock  
 Allium, Onion Flower  
 Lily of the Incas, Peruvian Lily  
 Hollyhock, Marshmallow  
 Amaranth, Love-lie-bleeding, Princess Feather  
 Belladonna Lily  
 Queen Anne's Lace, Bishop's Weed  
 Khella Baldi or Toothpick Weed  
 Lily of the Field, Wind Flower  
 Kangaroo Paw  
 Anthurium, Tailflower  
 Palm Leaves/Fronds  
 Bird's Nest Fern  
 Spiraea  
 Snow bush  
 Calatheas  
 China aster  
 Bell Flower  
 Turtle Head, Snake Head  
 Chrysanthemum  
 Garden Croton  
 Larkspur  
 Lily of the Valley  
 Cordyline  
 Craspedia  
 Siamese Tulip  
 Sago Palm  
 Persian Violets, Alpine Violets, Sowbread  
 Delphinium  
 Carnation  
 Foxglove  
 Dracaena  
 Pothos Leaves  
 Sea Holly  
 Lisianthus, Texas Bluebell  
 Freesia  
 Gentian  
 Gerbera  
 Corn Flag, Sword Lily  
 Gloriosa Lily, Glory Lily, Climbing Lily  
 Baby's Breath  
 Amaryllis, Barbados Lily  
 Hyacinth  
 St. John's wort

**SCIENTIFIC NAME**

*Iris* spp.  
*Ixia* spp.  
*Jasminum sambac*  
*Lathyrus odoratus*  
*Leucojum* spp.  
*Liatris* spp.  
*Limonium* spp.  
*Liriope muscari*  
*Lysimachia chletroides*  
*Molucella* spp.  
*Monstera* spp.  
*Muscari* spp.  
*Narcissus* spp.  
*Nerine* spp.  
*Nymphaea* spp.  
*Orchidaceae*  
*Ornithogalum* spp.  
*Oxypetalum* spp. (syn. *Tweedia* spp.)  
*Paeonia* spp.  
*Papaver* spp.  
*Philodendron* spp.  
*Phormium* spp.  
*Polianthes* spp.  
*Primula* spp.  
 Polypodiopsida (ferns)  
 – all species excluding *Adiantum* spp.,  
*Asplenium* spp. and *Dryopteris* spp.  
*Ranunculus asiaticus*  
*Rhapis* spp.  
*Rosa* spp.  
*Ruscus* spp.  
*Sandersonia* spp.  
*Scabiosa* spp.  
*Strelitzia* spp.  
*Symphyotrichum ericoides*  
*Tagetes* spp.  
*Thalictrum* spp.  
*Triteleia* spp.  
*Trollius* spp.  
*Tropaeolum* spp.  
*Tulipa* spp.  
*Viburnum* spp.  
*Viola* spp.  
*Zabthedeschia* spp.  
*Zinnia* spp.

**COMMODITY**

Iris, Flag, Fleurdeluce  
 Corn Lily  
 Arabian Jasmine  
 Sweet Pea  
 Snowflake  
 Blazing Star, Button Snake Root, Gay Feather  
 Statice  
 Lily Turf  
 Loosestrife  
 Bells of Ireland  
 Monstera Leaves  
 Grape Hyacinth  
 Daffodil, Jonquil  
 Nerine  
 Water Lily, Water Nymph  
 Orchids  
 Stars of Bethlehem  
 Baby Blue  
 Piney, Paeonia Flower  
 Poppy Flower  
 Philodendron Leaves  
 New Zealand Flax Leaves/Fronds  
 Tuberose  
 Primrose  
 Ferns (Leaves and fronds)  
  
 Persian Buttercup, Florist Ranunculus  
 Lady Palms  
 Rose  
 Ruscus  
 Chinese Lantern Lily  
 Morning Bride  
 Bird of Paradise  
 White Aster  
 Marigold  
 Meadow Rue Flowers  
 Spring Star Flowers  
 Globe Flower  
 Nasturtium  
 Tulip  
 Viburnum  
 Violet  
 Calla Lily  
 Zinnia
